
CURRICULUM VITAE

Name: Narendra Sahu

Gender: Male

Nationality: Indian

Date of Birth: 01/05/1977

E-mail Address: nsahu@iith.ac.in

Current Affiliation: Associate Professor, Department of Physics, Indian Institute of Technology Hyderabad, Kandi, Sangareddy 502285, Telengana , India.
Tel: 040-2301 7048 (office), Fax: 040-2301 6032 (office), Mobile: 9494425086

Ph.D.: Dept. of Physics, Indian Institute of Technology, Bombay, Powai, Mumbai – 400076, India.

Supervisor: Prof. Urjit A Yajnik (yajnik@phy.iitb.ac.in)

Employment Records (past & present):

- (1) Associate professor at the Dept. of Physics, IIT Hyderabad since 23rd February 2017.
- (2) Assistant Professor at Dept. of Physics, IIT Hyderabad from 4th October 2011 to 22nd Feb 2017.
- (3) Inter University Attraction Pole (IUAP) postdoctoral fellow at Physique Theorique, University Libre de Brussels, Boulevard du Triumph, Belgium, during 1st October 2009 to 30th September 2011.
- (4) Marie-Curie Research fellow at Cosmology and Astroparticle Physics Group, Department of Physics, Lancaster University, Lancaster, UK, during October 2007 to September 2009.

- (5) Postdoctoral fellow at Physical Research Laboratory, Ahmedabad, 380 009, India, during August 2005 to July 2007.
- (6) Ph.D. from Department of Physics, Indian Institute of Technology, Bombay, Mumbai, India, in July 2005.

Professional recognition, awards, fellowships received:

- (1) GATE fellowship from 2000 to 2005 in IIT Bombay.
- (2) Visited theory division, CERN, Switzerland, during 25th June to 30th July 2007.
- (3) Visited theory division, Tata Institute of Fundamental Research, Mumbai, India during 1st August to 30th September 2007.
- (4) Marie-Curie fellowship from October 2007 to September 2009 at Department of Physics, Lancaster University, Lancaster, UK.
- (5) Visited department of physics, University of California, Riverside, USA, during 20th to 24th July 2009.
- (6) IUAP fellowship from October 2009 to September 2011 at Service de Physique théorique, University Libre de Bruxelles, Brussels, Belgium.
- (7) Visited theory group KEK Laboratory, Tsukuba, JAPAN, from 5th – 10th July 2013.
- (8) Taught “Particle Physics and standard model” as a guest lecturer in preparatory SERC school held at the BITS-pilani Hyderabad campus, Hyderabad during June 2-28, 2014.
- (9) Visited Service de Physique théorique, University Libre de Bruxelles, Brussels, Belgium from 27th September to 4th October 2014.
- (10) Given three lectures on “dark matter” at the winter school in High Energy Physics held at school of Physics, University of Hyderabad, during 6th – 11th March 2017.

Research interest: At present I am working on various aspects in the interface of particle physics and cosmology. As we know standard model (SM) of particle physics, which is based on the gauge group $SU(3)_c \times SU(2)_L \times U(1)_Y$, is the most successful one to explain the strong, electromagnetic and weak forces of nature. With the recent discovery of Higgs scalar at Compact Muon Solenoid (CMS) and at A Toroidal LHC Apparatus (ATLAS) experiments at CERN-LHC the SM seems to be complete. However, it does not explain the tiny masses of the three active neutrinos for which we have strong experimental evidence. Moreover, it does not explain many other aspects which are related to the large scale structure of the observed Universe. In particular, some fundamental questions like “How observed matter is generated in a standard Big-Bang cosmology?”, “What constitutes the dark matter and dark energy?” and so many of this list. We try to answer some of these questions by using current experimental evidences. For example, non-zero masses of the neutrinos, the origin of matter antimatter asymmetry, the particle physics candidate of dark matter and its direct, indirect and collider signature etc.

Courses Teaching:

PH-5277 (M.Sc.) [Relativistic Quantum Mechanics]
PH-5267 (M.Sc.) [Symmetries in Quantum Mechanics]
PH-5257 (M.Sc.) [Scattering Theory]
PH-5137 (M.Sc.) [Approximation methods in Quantum Mechanics]
PH-5127 (M.Sc.) [Hydrogenic atoms]
PH-5117 (M.Sc.) [Wave formalism of Quantum Mechanics]
PH-3277 (EP) [Relativistic Quantum Mechanics]
PH-3267 (EP) [Symmetries in Quantum Mechanics]
PH-3257(EP) [Scattering Theory]
PH-3237 (EP) [Approximation methods in Quantum Mechanics]
PH-3127 (EP) [Hydrogenic Atoms]
PH-3117 (EP) [Wave formalism of Quantum Mechanics]
PH-2017 (EP) [Relativity]

Earlier courses taught:

PH-6320 (M.Sc.) [Quantum Field Theory]
PH-7070 (Ph.D.) [Quantum Field Theory]

Master thesis supervised:

S. No.	Student's Name	Passing out Year	Title of the master thesis
1	Saptashwa Bhattacharya (now pursuing Ph.D. in Tokyo, Japan)	2013	Relic abundance of Inert fermion doublet dark matter.
2	Pragati Mitra (now pursuing Ph.D. in VUB, Brussels, Belgium)	2014	Dark Matter: The physics beyond the standard model
3	Swagata Barma	2014	Massive Neutrinos: The physics beyond the standard model.
4	Chayan Majumdar (now pursuing Ph.D. in IIT Madras, Chennai, India)	2015	Determination of possible mass range of dark matter in the inert scalar triplet model.
5	Supriya Senapati	2015	Neutrinoless double beta decay in see-saw mechanisms.
6	Sambo Sarkar	2016	Relic abundance of singlet-doublet fermion dark matter.
7	Shweta Dalal	2016	Scalar dark matter in the minimal extension of the standard model.

Students working at present:

- (1) Nirakar Sahoo [Soon to get the Ph.D. degree]
- (2) Nimmala Narendra (pursuing Ph.D.)
- (3) Anuprava Mandal (pursuing master thesis)
- (4) Shalini Ganguly (pursuing master thesis)

List of Publications:

A. Journal Contributions:

- (1) Sudhanwa Patra, Soumya Rao, Nirakar Sahoo and **Narendra Sahu**, “Gauged $U(1)_{L_\mu-L_\tau}$ model in light of muon g-2 anomaly, neutrino mass and dark matter phenomenology”, [arXiv: 1607.04046], Nucl. Phys.B917 (2017), 317-336.
- (2) Subhaditya Bhattacharya, Nirakar Sahoo and **Narendra Sahu**, “Minimal vector-like leptonic dark matter and the signatures at the LHC”, [arXiv: 1510.02760]. Phys. Rev.D93, 11, 115040 (2016).
- (3) Subhaditya Bhattacharya, Biswajit Karmakar, **Narendra Sahu** and Arunansu Sil, “Unifying the flavor origin of dark matter with leptonic non-zero θ_{13} ”, [arXiv: 1603.04776], Phys. Rev.D93,115041 (2016).

Conference Talks (Invited/contributed)/Seminars:

(1) “Mixed fermion DM, neutrino mass and collider signatures”, invited seminar given in the theory division, Physical research laboratory, Ahmedabad, India during a visit from 24th December 2016 to 1st January 2017.

(2) “Mixed fermion dark matter, neutrino mass and collider signatures” talk given in a national conference “Looking for Beyond SM physics”, held at CHEP, IISc Bangalore during 20th – 22nd December 2016.

(3) “Mixed dark matter and detection perspective”, talk given in a Indo-US workshop “The Invisible sector”, held at University of Hyderabad during 16th – 18th November 2016.

(4) “Vector-like leptonic dark matter and its signature at LHC”, parallel session talk given in a conference “TeV Particle Astrophysics 2016”, held at CERN, Switzerland, during 12th –16th September 2016.

(5) “Vector-like leptonic dark matter and its signature at LHC”, invited talk given in a conference “Frontiers in High energy physics 2016”, held at ISc. Chennai, during 22nd – 25th March 2016.

(6) “Dark matter: From cosmos to collider”, invited talk given in a national seminar “Advances in astroparticle physics”, held at School of physics, Sambalpur University, Odissa, during 19th -20th Feb. 2016.

(7) “Vector-like fermion dark matter: From cosmos to collider”, invited seminar given in the department of physics, IIT Guwahati, on 20th Jan 2016.

(8) “vector-like leptonic dark matter and collider signatures”, invited talk given in a conference “Recent trends in Astro-particle and particle physics” held at CHEP, IISc Bangalore, during (11-12)th October 2015.

(9) “Invisible matters in light of PLANCK data”, invited talk presented at “School of Physics, University of Hyderabad”, during 26-28 Feb. 2015.

(10) “Inert Fermion Doublet Dark matter in light of neutrino mass and LUX data”, invited talk presented at “LHC & DARK MATTER”, held at IACS, Kolkata, India, during 9th -28th of Feb 2015.

(11) “Inert scalar and fermion doublet dark matters in light of neutrino mass and LUX data”, seminar given at University Libre de Brussels on 3rd October 2014.

(12) “Resurrecting left-handed sneutrino dark matter in light of neutrino mass and LUX data”, contributory talk presented at “DESY Theory workshop” held at DESY, Hamburg, Germany during 23rd to 26th of September 2014.

(13) “ Some models of Dark matter”, Invited talk presented at “13th Workshop on High Energy Physics Phenomenology (WHEPP-13)”, held at Puri, Odisha, India during Dec 12-21, 2013.

(14) “Asymmetric dark matter in light of Higgs-like signature at LHC”, Invited talk presented at “SUSY and DM” held at CHEP, IISc Bangalore, during 3rd -5th October 2013.

(15) “Darko-Lepto-Genesis in light of 125 GeV Higgs”, Invited talk presented at “FLASY 2013” held at Nigata Japan during 1-5th July 2013.

(16) “Darko-Lepto-Genesis in light of 125 GeV Higgs”, Invited talk presented at “HiggsTop 2013” held at GOA, India during Feb. 25th to 27th 2013.

(17) “Unifying Asymmetric Inert fermion doublet dark matter and Leptogenesis with Neutrino mass”, [arXiv: 1212.3951], presented at Recontres du Vietnam International conference “Beyond the standard model of particle physics”, held at QuyNhon, Vietnam, during July 15-21, 2012.

(18) “Common origin of asymmetric inert doublet dark matter and leptogenesis”, presented at “Scalars 2011”, held during 26th August to 29th August 2011, Warsaw, Poland and at “International Workshop on High Energy Physics and Phenomenology XII (WHEPP-12), held at Mahabaleswar, India during 2nd Jan 2012 to 15th Jan 2012.

(19) “Searching hidden sector dark matter via Higgs Portal”, presented at “GDR TeraScale@Brussels”, held during 3rd November to 5th November 2010, at University Libre de Brussels, Belgium.

(20) “Absolute electron and positron fluxes from PAMELA/Fermi and dark matter”, presented at “Annual meeting of the Institute of Particle Physics Astroparticle Physics Group”, held during 8th June to 9th June 2009, at Edinburgh, UK.

(21) ‘Symmetries in neutrino mass matrix: A bottom-up approach’, in “Aspects of Neutrinos”, held during 8th April 2009 to 15th April 2009, at Goa, India.

(22) ‘Gauge Singlet Dark Matter and ATIC/PAMELA electron and positron excesses’, in “EnTApP Dark Matter workshop 2009”, held during 2nd February to 6th February 2009, at CERN, Geneva, Switzerland.

(23) “Natural keV Warm Dark Matter via the Supersymmetric Higgs Portal and Small Scale Structures”, presented at UK Cosmology meeting held at Manchester University, UK from 15th of September 2008 to 17th of September 2008.

(24) “Inflation in Minimal Left-Right Symmetric Model with Spontaneous D-parity Breaking”, presented at UK Cosmology Meeting held at UCL, London, UK on 28th of November 2007.

(25) “TeV Scale Model for Neutrino Masses, Dark Matter and Leptogenesis”, AIP, Conf. Proc. 939: 294-297, 2007, presented at International Workshop on Theoretical High Energy Physics(IWTHEP), held at Indian Institute of Technology, Roorkee, India, during 15th March to 20th March, 2007; LHC-Cosmology Interplay, held at Theory Division, CERN, Switzerland, during 25th June to 10th August 2007; Workshop on Grand Unification and Proton Decay, held at International Center for Theoretical Physics (ICTP), Italy, during 22nd July to 26th July 2007.

(26) “Thermal leptogenesis below the Davidson-Ibarra Bound in an extended NMSSM model”, presented at DAE-BRNS symposium on High Energy Physics, held at Indian Institute of Technology, Kharagpur, India, during Dec – 11 to Dec-15, (2006) and Joint Indo-German school and workshop (JIGSAW) on Neutrinos in Physics, Astrophysics and Cosmology, held at Tata Institute of Fundamental Research, Mumbai, India, during 12th Feb to 23rd Feb-2007.

(27) “Connecting leptogenesis with low energy CP phases in two right handed neutrino models”, presented at DAE-BRNS symposium on High Energy Physics, held at Indian Institute of Technology, Kharagpur, India, during Dec – 11 to Dec-15, (2006).

(28) “Leptogenesis in left-right symmetric models through spontaneous CP violation”, presented at the workshop on theoretical physics held at IIT Roorkee, India, during 16th-20th Mar-2005 and Eighth European meeting “From the Planck scale to the electroweak scale” held at Abdus Salam International Center for Theoretical Physics, during 23rd to 28th May-2005.

(29) Srubabati Goswami et.al, Pramana 63, 1391 (2004), [arXiv: hep-ph/0409225] “Working Group Report: Neutrino and astroparticle physics, WHEPP-8, held at Indian Institute of Technology, Bombay, India, during January 5-16, 2004.

(30) “Upper bound on CP-asymmetry in type-II see-saw models” presented at DAE-BRNS symposium on High Energy Physics, held at Saha Institute of Nuclear Physics, Calcutta, India, during Nov-29 to Dec-3, 2004.

(31) “Cosmic gamma ray background, matter anti-matter asymmetry and bound on neutrino mass” presented at DAE-BRNS symposium on High Energy Physics, held at Saha Institute of Nuclear Physics, Calcutta, India, during Nov-29 to Dec-3, 2004.

Funded Project:

- (1) DST fast track project “Asymmetric Dark Matter (DM) and its probe at ongoing and future DM search experiments” implemented during May 2013 to Jan 2017. Funded amount Rs. 13,80, 000.

Schools & conferences organized

- (1) Organized a national conference “Invisible matters: Neutrino and dark matter”, during 29th – 31st October 2014.
- (2) Working group convener in Astroparticle and cosmology session in “WHEPP-2015”, held at IIT Kanpur during 4-13th December 2015.

Service to the scientific community

- (1) Referee of Physical Review D. and Physical review Letter
- (2) Refereed 2 Ph.D. theses.
