

16th Conference on Flavor Physics & CP Violation

The aim of this conference is to review developments in flavor physics and CP violation, in both theory and experiment, exploiting the potential to study new physics at the LHC and future facilities. The topics include CP violation, rare decays, CKM elements with heavy quark decays, flavor phenomena in charged leptons and neutrinos, and also interplay between flavor and LHC high p_T physics

FPCP 2018

July 14-18, 2018, HYDERABAD, INDIA

University of Hyderabad

IIT Hyderabad

PATRONS: Prof. Appa Rao Podile, Vice Chancellor, University of Hyderabad

Prof. Uday B Desai, Director, IIT Hyderabad

IAC
