HSF-India Scientific Computing Workshop-IIT Hyderabad

April 27, 2026 - May 1, 2026

This workshop covers
- Scientific Python
- Basics of machine learning
- Software for the DUNE experiments

This event is primarily organized for PhD and Master's students from all over India; however, it is open to anyone interested.

The workshop will be held from April 27-May 1, 2026. A registration fee of INR 2000 will be collected after applications are accepted. The fee covers registration, lunch, and tea/coffee breaks during the workshop. A limited number of scholarships will be available for deserving candidates (details will be announced separately).
